  http://support.lenovo.com/p/storage/v5030

Your product contains code that might be subject to third-party license agreements or terms that require Lenovo to provide you with certain notices. Your use of the product indicates your agreement to the terms of the applicable third-party license agreements. Some of the third-party license agreements might be presented to you the first time that you use the product or certain programs included with the product. Other applicable licenses or notices are shipped with the product, or they are included with the product code that can be downloaded from the support Web sites for your products..

System installation

To install your system, refer to the following guides:

- *Lenovo Storage V3700 V2 Installation Poster*
- *Lenovo Storage V3700 V2 XP Installation Poster*
- *Lenovo Storage V5030 Installation Poster*
- *Lenovo V3700 V2 and V5030 Quick Installation Guide*

Management GUI

To access the management GUI, ensure that your Web browser is supported and has the appropriate settings enabled. For information about the supported Web browser and required Web browser settings, refer to the "Configuring" chapter at:
http://systemx.lenovofiles.com/help/index.jsp?topic=/com.lenovo.storage.v3700.doc/lenovo_vseries.html

Software update

After system installation, you must upgrade the software to the latest version. The management GUI can be used to apply software updates. Refer to the support Web site for your product for the latest information about software updates.

Documentation

The latest version of the documentation and any associated errata are available at the support Web sites for your product. You can also see the latest documentation on the information center at:
http://systemx.lenovofiles.com/help/index.jsp?topic=/com.lenovo.storage.v3700.doc/lenovo_vseries.html

Getting connected to Lenovo Product & Subscription notifications

Your Lenovo Storage product is designed to deliver high performance services with quality and satisfaction. As part of Lenovo ongoing quality improvement processes, we periodically issue updates to our product which help to improve quality and reliability. We communicate new information of this nature through Lenovo Product & Subscription notifications. The information available to you covers a broad range of materials including software, knowledgebase documents, Preventative Service Planning information, fix information, security advisories, and more. Users may have multiple Product & Subscription notifications and can be notified by e-mail or syndication feeds (RSS) that new or updated content is available.

Registering for Lenovo Product & Subscription notifications is recommended to establish quick links to important information and to receive daily, weekly, or monthly notifications of the following product-specific information:

- Downloads and drivers
- Tips
- Problem-solving information
- Product information and publications

To register for the Lenovo Product & Subscription notifications, establish a Lenovo ID and password, go to: https://passport.lenovo.com/wauthen/register_small.jsp

To log in to your account, go to: https://passport.lenovo.com/wauthen5/userLogin. And then, go to **My Products** to set up your notification preferences.

Getting your system connected with Lenovo

Your Lenovo Storage product is designed to communicate its health and status with Lenovo. With these functions enabled, if your system detects a problem, it sends a message to Lenovo which opens a problem ticket (for systems under warranty or a maintenance agreement). These functions streamline the problem determination process.

The system can also be configured to periodically send Lenovo the current configuration of the system, such as system capacity and code levels. This information enables Lenovo to better support you. The installation wizard will guide you in setting up.
